Shareholder Expense Example

As a shareholder of the Fund, you incur ongoing costs, including management fees and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period (January 1, 2006 to June 30, 2006).

Actual Expenses

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and will not help you determine the relative total costs of owning different funds.

	Beginning Account Value <u>January 1, 2006</u>	Ending Account Value June 30, 2006	Expenses Paid During Period* January 1, 2006 to June 30, 2006
Actual	\$1,000	\$1,007.80	\$4.98
Hypothetical (5% return per year before expenses)	\$1,000	\$1,019.84	\$5.01

** Expenses are equal to the Fund's annualized expense ratio of 1.00%, multiplied by the average account value over the period, multiplied by 181/365 (to reflect the one-half year period).*

Notes to Financial Statements

NOTE 1—SIGNIFICANT ACCOUNTING POLICIES:

Sequoia Fund, Inc. (the “Fund”) is registered under the Investment Company Act of 1940, as amended, as a non-diversified, open-end management investment company. The investment objective of the Fund is growth of capital from investments primarily in common stocks and securities convertible into or exchangeable for common stock. The following is a summary of significant accounting policies, consistently followed by the Fund in the preparation of its financial statements.

- A. *Valuation of investments:* Investments are carried at market value or at fair value as determined by the Board of Directors. Securities traded on a national securities exchange or on a foreign exchange are valued at the last reported sales price on the principal exchange on which the security is listed on the last business day of the period; securities traded in the over-the-counter market are valued in accordance with NASDAQ Official Closing Price on the last business day of the period; listed securities and securities traded in the over-the-counter market for which no sale was reported on that date are valued at the mean between the last reported bid and asked prices; U.S. Treasury Bills with remaining maturities of 60 days or less are valued at their amortized cost. U.S. Treasury Bills that when purchased have a remaining maturity in excess of sixty days are stated at their discounted value based upon the mean between the bid and asked discount rates until the sixtieth day prior to maturity, at which point they are valued at amortized cost.

Foreign currencies: Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of foreign portfolio securities are translated into U.S. dollars at the rates of exchange prevailing when such securities are acquired or sold. Income and expenses are translated into U.S. dollars at the rates of exchange prevailing when accrued. The fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments. Reported net realized foreign exchange gains or losses arise from the sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the fund’s books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities at fiscal period end, resulting from changes in exchange rates.

- B. *Accounting for investments:* Investment transactions are accounted for on the trade date and dividend income is recorded on the ex-dividend date. Interest income is accrued as earned. Premiums and discounts on fixed income securities are amortized over the life of the respective security. The net realized gain or loss on security transactions is determined for accounting and tax purposes on the specific identification basis.
- C. *Federal income taxes:* It is the Fund’s policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its stockholders. Therefore, no federal income tax provision is required.
- D. *Use of Estimates:* The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.
- E. *General:* Dividends and distributions are recorded by the Fund on the ex-dividend date.

NOTE 2—INVESTMENT ADVISORY CONTRACTS AND PAYMENTS TO INTERESTED PERSONS:

The Fund retains Ruane, Cunniff & Goldfarb Inc., as its investment adviser. Ruane, Cunniff & Goldfarb Inc. (the “Investment Adviser”) provides the Fund with investment advice, administrative services and facilities.

Under the terms of the Advisory Agreement, the Investment Adviser receives a management fee equal to 1% per annum of the Fund’s average daily net asset values. This percentage will not increase or decrease in relation to increases or decreases in the net asset value of the Fund. Under the Advisory Agreement, the Investment Adviser is obligated to reimburse the Fund for the amount, if any, by which the operating expenses of the Fund (including the management fee) in any year exceed the sum of 1 1/2% of the average daily net asset values of the Fund during such year up to a maximum of \$30,000,000, plus 1% of the average daily net asset values in excess of \$30,000,000. The expenses incurred by the Fund exceeded the percentage limitation during the six months ended June 30, 2006 and the Investment Adviser reimbursed the Fund \$634,000.

For the six months ended June 30, 2006, there were no amounts accrued or paid to interested persons, including officers and directors, other than advisory fees of \$17,695,670 to Ruane, Cunniff & Goldfarb Inc. and brokerage commissions of \$194,044 to Ruane, Cunniff & Goldfarb LLC, an affiliate of the Investment Adviser. Certain officers of the Fund are also officers of the Investment Adviser and the Fund’s distributor. Ruane, Cunniff & Goldfarb LLC, the Fund’s distributor, received no compensation from the Fund on the sale of the Fund’s capital shares during the six months ended June 30, 2006.

In October 2005, the Advisory Agreement was terminated as a result of its assignment due to the death of a control person of the Investment Adviser, under the provisions of the Advisory Agreement and as required by the 1940 Act. The Fund’s Board of Directors approved an interim advisory contract between the Fund and the Investment Adviser with substantially identical terms of the Advisory Agreement. On December 12, 2005, the Board of Directors approved a new investment advisory contract between the Fund and the Investment Adviser effective March 1, 2006, subject to stockholder approval, with substantially identical terms of the Advisory Agreement. The new investment advisory contract was approved by stockholders at the February 24, 2006 stockholder meeting.

NOTE 3—PORTFOLIO TRANSACTIONS:

The aggregate cost of purchases and the proceeds from the sales of securities, excluding U.S. government obligations, for the six months ended June 30, 2006 were \$148,546,200 and \$233,663,272, respectively. Included in proceeds of sales is \$62,854,735 representing the value of securities disposed of in payment of redemptions in-kind, resulting in realized gains of \$54,264,838.

At June 30, 2006 the aggregate gross unrealized appreciation and depreciation of securities were \$2,155,782,675 and \$3,113,957, respectively.

NOTE 4—CAPITAL STOCK:

At June 30, 2006 there were 100,000,000 shares of \$.10 par value capital stock authorized. Transactions in capital stock for the six months ended June 30, 2006 and the year ended December 31, 2005 were as follows:

NOTE 5—DISTRIBUTIONS TO SHAREHOLDERS:

Distributions to shareholders are determined in accordance with federal tax regulations and may differ from those determined for financial statement purposes. To the extent these differences are permanent such amounts are reclassified within the capital accounts based on federal tax regulations. During the six months ended June 30, 2006 permanent differences due to a net investment loss not deductible for tax purposes and realized gains on redemptions in kind not recognized for tax purposes resulted in a net decrease in net accumulated investment loss of \$7,826,436 and undistributed net realized gains of \$56,500,946 with a corresponding increase in paid in surplus of \$48,674,510. These reclassifications had no effect on net assets.

The tax character of distributions paid during the six months ended June 30, 2006 and the year ended December 31, 2005 was as follows:

	<u>2006</u>	<u>2005</u>
Distributions paid from:
